

## NAME MEN TO PUSH SCOUTING

Ogden District to Include  
Morgan, Davis, Box  
Elder Counties.

The organization committee of the Ogden council of Boy Scouts of America, recently authorized for appointment by Major Frank Francis and the Rev. J. E. Carver of the board of directors, were named last night. These men will aid in perfecting the enlargement of the local district, the council of scouts and of the expansion of the local organization into Box Elder, Morgan and Davis counties. This committee is as follows: Fred G. Taylor, John L. Taylor, Samuel G. Dye, Charles Empey and N. A. Tanner.

The enlarged organization under the present plans is to be perfected by October 1. Plans for these steps will be presented at the next meeting of the organization committee.

**OGDEN HOLDS RECORD.**  
This work is being done under the direction of the national council, which has authorized the expansion of the local district after an inspection made by Charles N. Miller, regional scout executive. While in Ogden Mr. Miller made a survey which showed that Ogden had a larger organization of scouts than any other city of its size in the United States.

The extension of the program into other counties will tend to increase the interest in scouting it is stated.

**PRaises ROTARIANS.**  
Mr. Miller praised the work of the Rotarians for their loyal support given to the boy scouts and scout officials, stating that their aid had resulted in the plans necessary for extension of the work into other counties.

The Ogden Rotary club has sponsored and financed the local organization for the past three years during which time over 1500 boys have been associated with scouting. The organization at this time has an enrollment of 900 scouts, together with a band, bugle and drum corps.

**TO SUPPORT SCOUTING.**  
"Boy welfare is the hobby of Rotary clubs," said President Henry Anderson of the Ogden Rotary club, last night. "After three years of sponsoring the Boy Scout movement the organization is to be enlarged with the Rotarians still back of the program. The Ogden club is glad to see the program made available to the boys in the adjacent counties and while the Rotary club would be relieved of the responsibility of financing the local council under the proposed enlargement organization, nevertheless Rotary's chief function is boy work and the club will still continue to be ardent supporters and strong advocates of scouting."
